

# Progress report

ICT for Music Education – Slovakia – May 15

*"Funded by the Erasmus+ Program of the European Union. However, European Commission and Turkish National Agency cannot be held responsible for any use which may be made of the information contained therein"*

# Surveys

1. No ICT course due to already existing knowledge level
2. Music course as a general purpose is not attractive – those interested in Music prefer to attend one of the many music schools or conservatoriums – mostly dedicated to classical instruments
3. Music course for a dedicated group seems to be appropriate

Link to the survey results in English:

# Music Training

1. We have made contact with an institution for disabled youth “**Mokrohajska**”
2. We have talked to the employees, who work with the patients – at the moment they use classical forms of music only
3. We have shown the video from Portugal
4. Immediately we have received strong interest

## We plan to help them in setting up Music training

# Typical Instruments

1. We talked to the traditional dance group “**sluk**”
2. They have prepared a summary of Slovak instruments
3. Given that we will follow the copyright-conditions, we can use their information archive

**We will be able to present typical instruments!** (with their help)
